

THE ARTHUR S. FLEMMING AWARDS PROGRAM

The purpose of honoring outstanding men and women in the Federal Government each year is fourfold:

- (1) to recognize those who have performed outstanding and meritorious work for the Federal Government;
- (2) to encourage high standards of performance in the Federal Government;
- (3) to enhance appreciation of our form of government and the opportunities and responsibilities that it presents; and
- (4) to attract and retain outstanding persons to the Federal service.

Eligibility of Nominees

- Any career Federal employee of the Executive Branch as of December 31, 2003 of the United States Government or member of the uniformed services who has at least three but no more than fifteen years service as of December 31, 2003 is eligible for nomination for the Arthur S. Flemming Award.
- Similar employees of the Library of Congress, General Accounting Office, Office of the Capitol Architect, Government Printing Office, Administrative Office of the U.S. Courts, Smithsonian Institution, and Botanical Gardens are also eligible.
- A nominee may be an officer or employee in the department headquarters or field service throughout the world.
- Awards will be made to individual government employees who have made outstanding contributions to public service on either a sustained basis or through a single exceptional accomplishment achieved or completed during 2003. Individuals previously nominated but not selected for a Flemming Award may be renominated, subject to the eligibility criteria stated above.

General Information

Twelve separate awards will be made. Four awards will be made to individuals in the scientific or technical fields ("Scientific"), four to individuals in administrative or executive fields ("Administrative"), and four to individuals in information and technology fields ("Applied Science"). A nomination must be submitted in only one category (i.e., Scientific, Administrative, or Applied Science), even though duties may overlap two or more areas. Nominees should have demonstrated exceptional ability and superior performance during the year for which nomination is made, either in work undertaken during that year or in successful completion during that year of a task commenced in the prior year(s). Nominations for work undertaken entirely in, or completed in, prior years are not eligible. Nominees also should have demonstrated either a single, outstanding achievement, or a continuously superior level of performance over a period of time, as well as recognition through awards and publications (where appropriate, e.g. scientific endeavors). Nominees should also have an active participation in community activities (including professional activities where the purpose is not considered self-promoting) as a demonstration of a well-rounded lifestyle. Administrative nominees should have demonstrated exceptional ability in administration (i.e. personnel, finance, labor, or law). Scientific nominees should have demonstrated achievement that is considered to be

pioneering, unique, and innovative with a break-through impact. Applied Science nominees should have demonstrated innovative uses in technology to address an important agency objective, including adapting commercial off-the-shelf technology to meet the agency's needs.

Award Selection and Presentation

Winners of the award will be chosen by a panel of distinguished, nationally prominent judges. Each award winner will receive a suitably engraved medal. Awards will be presented at the Arthur S. Flemming Awards Program in Washington, D.C.

Preparation of Nominations

Each nomination must be accompanied by a citation of accomplishments (approximately 150 words in length) summarizing the work performed by the nominee that is to be considered for the Award. A citation must contain specific description of the nominee's work and achievements. Winners' citations will be used in press releases and in the commemorative brochure. Nominations that fail to include a citation will be considered incomplete.

- All nominations must be submitted with 20 copies on 8 1/2" x 11" paper.
- Two professional, portrait-style (head and shoulders only) 8" x 10" black-and-white photos should be included with each nominee's package.

More Information

For more information or to request additional packets, please contact:

The Arthur S. Flemming Awards Program

The George Washington University

805 21st Street, N.W., Suite 601

Washington, DC 20052

phone (202) 994-6295 • facsimile (202) 994-6792

e-mail: flemming@www.gwu.edu

web: www.gwu.edu/~flemming

- The nomination must include the first (cover) page of the "Arthur S. Flemming Awards Nomination Form", completed in detail requested and bearing the original signature of the agency/department head or acting head who is approving the nomination. If it is not possible to use the actual first page, a substitute must be drafted in exactly the same way and contain all of the information requested, including an original signature (electronic signature is not acceptable).
- All information submitted in this nomination should be typewritten single-spaced with double spacing between paragraphs.
- The descriptions requested below should be completed on separate sheets of paper on one side only and should carry as a heading the abbreviated titles appearing at the beginning of each category.
- The George Washington University must be specifically notified of any facts that may not be released to the public news media.
- Special emphasis will be given by the Judges to the PROFESSIONAL ACHIEVEMENT of the Nominee.

Each nomination should include the following:

(1) Federal Employment History: A brief chronological review of the nominee's Federal employment indicating the number of years in each position and a brief description of the nominee's present duties and responsibilities, including the scope of his or her work.

(2) Professional Achievement: A description of the nominee's specific accomplishment(s). This description should make clear the nature and significance of the achievement and the nominee's specific role. Include a statement of the extent of application of the nominee's achievement (i.e. affecting the function or mission of one facility or installation, an entire agency, or government wide).

Examples for Scientific, Administrative, and Applied Science categories might include, but are not limited to, the following:

- where appropriate, work that has realized significant cost savings/avoidance;
- broad, lasting beneficial impact on the community at large, both national and international;
- if the nominee is a team member, irrefutable evidence of the nominee's leadership of and inspiration to fellow members of the team to achieve its goal(s). Nomination of individuals who are effectively doing the job for which they are paid will not be rated as highly (e.g. a program director may be appointed to the position based on past performance but in this capacity work only as a coordinator—exceptional leadership skills to achieve results must be demonstrated);
- wide recognition by community and peers.

Additional example for Scientific nominees:

- demonstrated achievement that is considered to be fundamental to the advancement of their field such that it is generally recognized as pioneering, unique, and innovative.

Additional examples for Administrative nominees:

- expert knowledge of resources and management principles and techniques, laws and regulations applicable to the administrative programs;
- demonstrated professional expertise and leadership in development of short and long range policy planning, strategic planning, and quality management.
- demonstrated outstanding leadership with group leaders and teams;
- expert ability to establish and maintain effective professional relationships with management and staff, coworkers, and personnel of other organizations in crosscutting policy areas;
- demonstrated evidence of successful problem-solving, conflict resolution, and performance-based recognition management decision-making;
- recognition within policy/programmatic area for effective leadership.

Additional examples for Applied Science nominees:

- demonstration of innovative uses of known scientific knowledge to develop technology that addresses an important agency objective, including application of commercial, off-the shelf technology in an innovative and new manner to meet the agency's needs.

(3) Awards and Publications: A list of any government or professional awards received and a list of any professional publications germane to the nominee's career objectives.

(4) Community Involvement: The nominee's significant community service whether within or outside of their professional field. Activities which have had an important impact on the community will be considered in the judgment process.

Submission of Nominations

Nominations must be submitted by and have the signature approval of the agency head or acting head of the agency. Nominations will not be considered without this approval. Each agency or department may submit no more than two nominations per category.

Nominations must be received by The George Washington University NO LATER THAN 5:00 PM, MARCH 5, 2004 (expected due date). They should be submitted to:

The Arthur S. Flemming Awards Program
The George Washington University
805 21st Street, N.W., Suite 601
Washington, DC 20052

Checklist

- . Completed Nomination Form
